DIARY NOTES

DD/S

27 July 1965

1. I met with the Support Action Panel and expressed some of my views about their program of operation and the benefits I anticipate under the revised Support selection procedure.

2. Jack Earman was in to see me about the following items:

a. We discussed the JMWAVE housing allowance and agreed to submit this question to Colonel White so that he can suggest to Dick Helms that it is time to take a second look at the need for this allowance in view of the continued activity of JMWAVE. If justified, the allowance can be reconfirmed and continued; if not, it should be discontinued.

b. Jack discussed the contractual relationship of the Agency with [REDACTED] I suggested that this question be referred to the Director of Security, who can take a current look at the status of these two individuals with regard to their extensive current situation.

3. I discussed with [REDACTED] the policy question regarding dependents of Agency personnel assigned to Saigon. We agreed to ask DD/P to prepare another paper citing the policy issue together with the expenses which would be involved should such a policy be approved so that we will have a complete package. Such a policy would involve a considerable expenditure of funds, particularly for the construction of approximately thirty-five sets of quarters [REDACTED]

6. Howard Osborn called to report on the case of [REDACTED]

25X1A

[REDACTED]. The lawyers for the two parties want to talk to [REDACTED]. I agreed provided an OGC representative is present and the only information discussed is that related to the current issue, namely, what [REDACTED]. Certainly, information from Agency records which is not pertinent to this immediate problem should not be discussed.
